Pioneering initiatives in India

- Established the first steel plant
- Introduced labour welfare benefits long before they were enacted by law
- Started the first power plant
- Pioneered civil aviation
- Brought insurance to the country
- Started the country's first chain of luxury hotels
- Led commercial vehicle production
- Pioneered software development
- Manufactured the country's first indigenous passenger car, the Indica
- Provided affordable, innovative and inclusive solutions such as the Tata Nano, Tata Swach water purifier and Shubha Griha housing

Commitment to community: giving back to society what came from the society

- Tata companies and Tata trusts work in the areas of health, education, women and child development, training of youth and building sustainable livelihoods, and environmental conservation.
- The Tata trusts have given endowments to set up national institutes of learning such as the Indian Institute of Science, Tata Institute of Fundamental Research, Tata Institute of Social Sciences and health care facilities such as the Tata Memorial Hospital and Tata Medical Center.
- A pioneer in employee welfare, Tata Steel introduced the 8-hour working day, provident fund, maternity leave, etc. much before they became laws.
- In recent years, Tata companies have started using their core competencies to help in sustainable development of the community – TCS has developed a functional literacy programme; Tata Interactive has created e-learning modules to help children with learning disability; Tata Teleservices helps fishermen with communications technology.
- Tata trusts offer educational scholarships to Indians for higher studies in the country and as well as outside India.
- Tata Sustainability Group publishes guidelines such as the CS Protocol and the framework for Sustainability , which serve as a guide for Tata companies in India and abroad.
- Tata group ranks among the top 10 corporates in the world in terms of volunteering hours.
